DETAILED ACTION

The supplemental reply filed on 8/9/07 was not entered because supplemental replies are not entered as a matter of right except as provided in 37 CFR 1.111(a)(2)(ii). The supplemental reply does not correct any informalities found in the claims, but rather changes the scope of the claims, specifically, the substitution of the word "evaporable" with "volatile". "Evaporable" indicates a substance in which evaporates under high temperatures and high pressures, where the word "volatile" indicates a substance which evaporates under low temperatures and low pressures. Also, the Examiner had placed the application in condition for allowance before Applicant filed a supplemental reply.
